Task 4. Imagine that you and your friend are doing a school project “Using the Internet”. You have found some photos to illustrate it but for technical reasons you cannot send them now. Leave a voice message to your friend explaining your choice of the photos and sharing some ideas about the project. In 2.5 minutes be ready to:

- explain the choice of the illustrations for the project by briefly describing them and noting the differences;
- mention the advantages (1–2) of the two gadgets used to connect to the Internet;
- mention the disadvantages (1–2) of the two gadgets used to connect to the Internet;
- express your opinion on the subject of the project – which of these gadgets to use the Internet you prefer and why.

You will speak for not more than 3 minutes (12–15 sentences). You have to talk continuously.

Оригинальный текст:

Hi Ben! I found two pictures on the Internet to illustrate our project using the Internet. And I'd like to comment on them. I think these photos depict the project in the best way as they show two completely different types of gadgets for online access. In the first picture there is a girl using laptop at table. Second picture shows a girl lying down while browsing on her phone. There is a clear distinction between this picture. The first one represents a more formal way of working, uh while second illustrates casual mobile use. Both kinds of devices have their advantages. Main benefit of a laptop is a large screen and keyboard which make your work faster or make it perfect for study. On the other hand, a smartphone is extremely portable and allowing this is allowing us to stay connected wherever we go. As for disadvantages, laptops can be quite big and heavy to carry around all day. Uh but on the away smartphones have small screens what can cause eye pain and aren't very convenient for typing long texts. Personally, I would prefer to use a laptop for our project because it's much more efficient and help us to organize all information. Please let me know whenever you like the choice of the photos for our project.
